

2026-2027 TGIF High School Tutorial Information

TGIF offers a 32-week high school program that coincides with Specials Day. Classes will run from Friday, September 11, 2026, through Friday, May 14, 2027 with breaks for Thanksgiving, Christmas, New Year's Day, and Good Friday. Specific date information will be posted on the TGIF calendar and an email with the dates will be sent to all high school members. Classes will meet at Kirkridge.

Important: There is not an aide for high school classes, but during times when Specials Day does not meet, there will need to be another adult in the building during class times in case an emergency arises and also to supervise children of the instructor and other students in the study hall. There are usually 11-12 school days of the year where this is a need and parents of high school students are required to serve in this capacity for the classes their child is registered for. Usually, this means parents will serve two to four times during the year on a day that is convenient for them. Expect an email with a sign-up genius in early August.

Registration will open on Monday, March 23.

Board members may register at 8pm.

All returning members may register at 9pm.

New members may register on Tuesday, March 24 at 8pm.

Registration will remain open until June 1.

Please register for the desired classes on the TGIF website. An email invoice will be sent to you at a later date. Please do not pay until an invoice is received. **The invoice will include a \$40 high school fee which helps TGIF pay for the use of the building during the winter months.**

Payment plans are available. Please reach out to the high school representative for more information.

Drop policy - If you decide to drop a class, you must contact the high school representative by **June 15** to have your money fully refunded.

If you have any questions, please contact TGIF's high school representative.
